Professional Summary

Full-stack developer with hands-on experience in MERN stack, Next.js, and Docker. Developed scalable cloud IDEs and responsive web applications. Proficient in integrating secure authentication (JWT) and designing dynamic user interfaces. Passionate about Blockchain development and modern web technologies.

Experience

- **Full Stack Intern :** GamersBack– [January,2025] to Present

  - Diagnosed and resolved critical frontend bugs, ensuring improved functionality and a seamless user experience.
  - Enhanced website performance, increasing the Lighthouse score from **35** to **55**, resulting in faster load times and better user engagement.
  - Collaborated with cross-functional teams to implement scalable solutions for long-term website stability and performance.
  - Applied best practices in debugging and performance optimization to meet key performance indicators (KPIs).

Skills

- **Languages**: Java, C++, Python, JavaScript, TypeScript, HTML, CSS, Solidity
- **Frameworks:** Next.js, React, Node.js, Express.js, Nest.js, Django, Vue
- **Databases:** MongoDB, MySQL
- **DevOps:** Docker, Render
- **Tools:** Git, Postman, VS Code, Remix Ide, HardHat
- **Others:** REST APIs, JWT, Cookies, CORS, State Management(context, Redux)

Projects

Portfolio Website

Designed a portfolio website using React to showcase my projects. Features a responsive layout, contact form, and dynamic sections with animations.
- **Link:** Live link

CodeRun - Cloud IDE

Developed a cloud IDE for running Python and JavaScript code. Utilized Next.js for the frontend and Docker for isolated execution. Integrated JWT authentication and designed a responsive UI with a theme switcher.
